HENRY C. SANDERS, } Selectmen.

## State of New Hampshire.

To the Inhabitants of the Town of Claremont in the County of Sullivan in said State qualified to vote in Town affairs :

You are hereby notified to meet at the Town Hall in said Town on Tuesday the twelfth day of March next at nine o'clock in the forenoon, to act upon the following subjects :

First.—To choose a Moderator to preside in said meeting.

Second.—To choose all necessary Town Officers for the year ensuing.

Third.—To take the sense of the qualified voters whether the alterations and amendments of the Constitution proposed by the Constitutional Convention shall be approved.

Fourth.—To see what sum of money the Town will vote to raise for the support of Schools the ensuing year.

Fifth.—To see what sum of money the Town will vote to raise for the support of Stevens High School.

Sixth.—To choose a committee for Stevens High School for the ensuing year.

Seventh.—To see what sum of money the Town will vote to raise for the repairs of Highways and Bridges the ensuing year, and determine how it shall be paid.

Eighth.—To raise by vote the necessary amount of money to pay the legal expenses of the Town the ensuing year.

Ninth.—To see what sam of money the Town will vote to raise to pay the debts of the town.

Tenth.—To see what sum of money the Town will vote to raise for the Fiske Free Library.

Eleventh.—To see what sum of money the Town will vote to raise for the support of the poor.

Twelfth.—To see what sum of money the Town will vote to raise to pay firemen.

Thirteenth.—To see what action the Town will take in regard to hydrants and raise and appropriate money therefor.

Fourteenth.—To see what action the Town will take in regard to lighting the streets, and raise and appropriate money therefor.

Fifteenth.—To determine the rate of discount the Town will allow to persons paying their taxes within such periods as the Town may designate.

Sixteenth.—To see what sum of money the Town will vote to raise for the expenses of Memorial Day.

Seventeenth.—To see what action the Town will take in regard to a system of sewerage.

Eighteenth.—To see what sum of money the Town will vote to raise or appropriate for the benefit of the American band.

Nineteenth.—To see what action the Town will take in regard to the unpaid legacy of Paran Stevens to the Town of Claremont.

Twentieth.—To see what sum of money the Town will vote to pay the Board of Education the ensuing year.

Twenty-first.—To see what action the Town will take in building a new bridge in place of the Upper bridge and raise and appropriate money therefor.

Twenty-second.—To see what action the Town will take in regard to buying land for a new cemetery and raise and appropriate money therefor.

Twenty-third.—To see what action the Town will take in regard to the employment of a night watch.

Given under our hands and seal this twenty-third day of Feb., A. D. 1889.

HENRY C. SANDERS,	
JAMES P. UPHAM,	
DANIEL W. JOHNSON,	
EDWARD. J. TENNEY,	

## REPORT OF CHIEF ENGINEER.

The Chief Engineer of the Fire Department reports very small loss by fire for the year ending March 1, 1889, the Department having been called out on only the three following occasions: Fire upon Broad Street at Mr. Hermon Holts where we had a good opportunity to test the new hydrant service, which proved most satisfactory, the fire being extinguished with slight damage; burning of the water tank at Clarendon Junction, small loss; alarm of fire at Mrs. John Donegan's North St., no damage.

The town, the last year, rented forty-one hydrants of the Water Co., and will need one or two more in addition the coming year. On account of this excellent water supply the town is to be congratulated and it seems with this and the fine condition of the Fire Department, losses of fire ought to continue to be very slight.

It will be necessary to raise about the same amount of money the ensuing year. as last, for the Fire Department.

G. H. STOWELL, Chief Engineer.

# Report of Trustees

OF STEVENS HIGH SCHOOL FUND.

The amount of this fund in the hands of the Trustees is the same as reported last year, \$10,000. The income for the year, 1888, \$600, has been paid into the town treasury. The Legacy bequeathed by the late Paran Stevens, \$40,000, remains as heretofore, and it is uncertain when the amount will be paid over to the town, as the affairs of the estate are in litigation.

A suit has been commenced by the Executors for the purpose of obtaining an order from the court to sell the real estate to pay off the debts and legacies. We regard this as substantial progress. We can only reiterate what we have previously reported that we have no doubt regarding the ultimate payment of the legacy with interest as the several legacies in the will have been declared by the court a lien upon the real estate, the value of which is much more than the amount of the legacies. Hon. Wm. M. Evarts has been employed by the committee appointed by the town, to urge in the courts such action as shall hasten the settlement of the Stevens estate, and the payment of the legacy to the town of Claremont as was fully intended by the generous donor.

## *The Alden Literary Prize Fund*

consists of the real estate bequeathed by the late Mrs. Mary J. Alden, and \$854.12 deposited in the Sullivan Savings institution. There has been received during the last year for rent \$144, interest \$36.30 and there has been paid out for prizes, \$120, rent Tyler water \$8.00 and for labor on the Alden monument and lot, \$5.00.

EDWIN VAUGHAN, Treasurer Stevens High School Com.

*Claremont, N. H., March 1st, 1889.*

We, the undersigned, Auditors of the Town of Claremont, have examined the foregoing accounts of the town Treasurer, Selectmen, Overseer of the Poor, Treasurer of the Stevens High School Committee, the Financial agent of the Fiske Free Library, the Committee of the Tappan Fund, the Alden Literary Prize Fund, and find the same correct, with proper vouchers.

H. W. PARKER,	} Auditors.
E. J. TENNEY,	
I. D. HALL,	

REPORT OF THE BOARD OF HEALTH FOR THE TOWN  
OF CLAREMONT, FOR YEAR ENDING MARCH 1, 1889.

During the year ending March, 1889, there has been reported to the Board of Health twenty cases of scarlatina, and most of those during the winter months. These cases have all been of a mild form and all have recovered. There has also been reported two cases of diphtheria and two cases of typhoid fever, and all of these have been very mild cases. In each of these cases instructions have been given to use great care to prevent a spread of the disease, and we have reason to believe, from the results, that our instructions are generally heeded. There has been but one case of scarlatina reported during the last month, and we have reason to believe that the community need not fear any serious increase of this disease. The physicians of our town have generally united with the Board in taking all necessary steps to confine these diseases to the particular locality where they appeared. In each case fumigation and disinfectants have been extensively resorted to. Notwithstanding the efforts that the Board and the physicians have put forth there are still many people who do not fully realize the importance of this matter, and seem to be indifferent in regard to consequences that may ensue. They should realize that this matter concerns the entire public, and should cheerfully comply with the rules and regulations published by the Board of Health. The law gives the Board of Health much greater power than it has ever exercised. It has been thought better by the Board to move slowly, and by so doing induce our people to act in harmony with the Board, rather than resort to extreme measures which can be done.

The Board is of the opinion that great good has been accomplished. First there is a more healthy and intelligent public sentiment on the part of the great mass of our people in regard to the necessity of observing the laws of health and preventing the spread of contagious and other diseases. Many nuisances have been abated, although much more remains to be done in this respect. During the past year our slaughter houses have been kept clean generally, and it has been demonstrated that a slaughter house can be maintained near private residences and not become a nuisance. All that is needed to prevent any unpleasant odors, is a watchful care and close attention to every part of the establishment, by those who have it in

charge. The Board is of the opinion that it is better to have these places kept where they can be daily observed than in some retired place where no one will feel any responsibility.

There are some people in town who do not co-operate with the Board in suppressing nuisances, and are disposed to treat the matter lightly ; but a very large majority are ready and willing to render all the assistance they can.

Those who have tenement houses are too often unwilling to look after drain-pipes, wells and cesspools, and the attention of the Board has frequently been called to these matters by the tenants. There should be an improvement in this respect. The great and crying evil in our village is the lack of suitable drainage. We now have an adequate supply of pure water and a system of drainage must follow. We invite a careful study of the Report made to the town upon a system of sewers at the present time. People are careless and indifferent in regard to garbage and refuse matter which is too often thrown into or along side of the public streets. This should be condemned, and vigorous measures should be taken to entirely stop this practice. There are a few people who persist in maintaining pig-styes in this beautiful village of Claremont. thereby annoying their neighbors and disgracing themselves.

H. W. PARKER,	}	Board of Health.
O. B. WAY,		
E. F. HOUGHTON,		

# Report of Stevens High School Committee.

---

The Stevens High School has passed another successful year, and while we have no unusual matters to report, the work under the very efficient corps of teachers, all of whom have been in the school for several years, has been systematic and thoroughly progressive. The teachers' standard of scholarship for the school is set high, and their efforts are generally seconded by the scholars to an eminent degree; there seems to be a commendable pride in the good name of the school, and an appreciation of the superior advantages enjoyed.

The discipline of the school should be especially commended, for, while it is thorough, it is mild and with very little friction. Students are not bound with a superabundance of rules, but largely trusted to the more worthy restraints of individual honor.

Scholars come to the school better fitted than formerly, only two scholars from the classes fitted in the Grammar School the past two years having failed to pass, and a much larger percentage have passed from the mixed schools than formerly, which we think worthy of commendation in behalf of our whole system. More of our boys and girls should take advantage of this school; more could be cared for with but slight additional expense.

The school is known throughout the State, and recognized as of high rank among institutions of like grade and purpose. Its graduates gain ready admittance to our colleges, and advanced rank in our normal school, to which we take pleasure in commending the good material in our schools for teachers.

"It goes without saying" that Mr. Hastings is the right man in the right place; a scholarly gentleman as well as an eminently success-

ful teacher, we very much regret that his health is so much impaired that he has had to ask leave of absence for the remainder of the present term, with the intention of trying the benefit of a sea voyage, hoping to be able to return in time for the summer school, and we hope he may be entirely successful. In the meantime, we have secured the services of E. H. Ross, a graduate of Dartmouth, '86, of considerable experience in teaching, and at present a member of the Dartmouth Medical School. With the able assistance of Miss Jessie E. Bigelow, Miss Josephine Steele and Miss Nellie C. Lewis, our assistants for the past three years, we have no fears for the progress of the school under Mr. Ross.

## Report of the School Board

Of the TOWN SCHOOL DISTRICT for the year ending March, 1889.

There is no safer criterion by which to measure the intellectual drift of a town, or its social desirability as a home, than the degree of perfection of its school system. Individual interest in schools, and an intelligent support on the part of the people, is necessary to the development of the proper atmosphere to insure the best progress.

Our schools are not perfect, nor, perhaps, as nearly so as we have a right to expect, certainly not as we hope to make them; but the School Board feel satisfied that the past year's work has given satisfactory results, in the general progress of the scholars in elementary work; in methods of study as well as teaching, looking to proper development of the pupils intellectual strength through the exercise of his reasoning faculties, rather than loading the memory alone with abstract facts. Education is not a pouring in, as into a jug. A mind simply stored with facts through the memory, is no more an educated mind than the various parts of a locomotive scattered around the shop are a locomotive. Education is the unfolding, the development of the intellectual germ already existing, and this applies to both mental and physical capacity, neither of which can be neglected without injury to both.

Educators are to day seeking this development by methods strange to the past, founded on more intelligent premises and enlarged experience. Our better teachers do not consider their duty done when they have asked certain printed questions, nor have scholars won the victory of success or even comprehended that there is a victory, by memorizing printed answers. Scholars should be led to observe, to compare, to see things around them as they are, to think according to their capacity or development, led by careful suggestions, object

lessons &c. The teacher who best succeeds in such modern methods, is the best teacher, and the cheapest whatever the price paid. Such teacher lifts from the pupil a heavy load of discontent, drudgery, and longing for the last day of school, and substitutes a flame of interested thought; the spirit of investigation, curiosity as to the nature of things around him, so that he sees things in a new light and forgets that study is work. This is the line of development in which we have, so far as we are able, endeavored to aid and second our teachers. It is our policy to retain progressive teachers, making as few changes as possible. We favor teachers who have entered upon teaching as a profession, and have given special work to methods. In this view we believe in the value of normal preparation both from theory and our own experience in the schools of all grades—particularly in the primary. The idea that anybody can teach a primary school, is and ought to be of the past.

The master builder looks first to his foundation; thorough work there saves changes, tearing down and rebuilding, with tripled difficulties and expense, and often permanent injury.

From the nature of the case our schools cannot all be properly graded for the best and most economical work, but we must seek the best we can with our opportunities, and to this end, next to the pleasant, comfortable, well ventilated, properly seated houses and trained teachers, is the oversight of the schools, by the town, through the intelligent interest of individuals, and the School Board, which is invested with superintending powers.

This Board should not be selected hap hazard, but with careful forethought, from persons interested in school work, willing to make some sacrifice for the good of the schools, which, if faithful, they will have to do; superintendence should be competent and intelligent, capable of giving aid and advice to the teacher in all matters, questions of discipline, courses of study, and methods; without these qualifications, the less "superintendence" in the school room beyond mere observation the better.

The Board should be unconditionally supported so far as they are faithful; complaints as to school matters or teachers should only be made to the Board and not to the public from curb stone caucuses; children are apt to treasure up and act upon hasty criticisms without thought, often thereby working great injury to that proper content and discipline upon which the best results largely depend.

Claremont has a good system of schools and a progressive one, and an able corps of teachers, many of whom have been in service for a long time and could not be spared without serious loss, of whom we would like to speak particularly, but to do so would carry this paper beyond proper limits, and moreover "not being infallible," though a teacher may not prove satisfactory to us, she may, under other conditions, do good work and should not be handicapped by published criticisms. We certainly have had no teachers that have not labored faithfully.

The graded schools in the village and at Drapers Corner were in session thirty-three weeks. The mixed schools were in session thirty-two weeks, as it was deemed advisable to shorten the spring term one week on account of bad travelling.

In four schools some time has been lost on account of illness of teachers necessitating a change in Nos. 5, 11 and North street Intermediate.

There were but twenty-one weeks of schooling in No. 8, as there being but two scholars desiring to attend at the commencement of the winter term, it was not thought advisable to open the school.

On Bible Hill there were 23 weeks. The school buildings in this district were, during the year, thoroughly repaired, partly new silled, clapboarded and painted, supplied with new windows and doors, new floors, new woodshed &c., painted and kalsomined, and supplied with modern desks—making a very pleasant and in every way desirable house. There has usually been but two terms of school here on account of the unfitness of the premises for a winter school. This year the house being all right the people having scholars to send asked for a winter term, so the Board engaged the teacher that had taught the school for several years and opened the school, but only two scholars appeared for which we have yet to hear any reasonable cause, after two weeks we closed the school.

The North street school house has been repaired during the year, repainted and whitewashed.

At the commencement of the Fall Term we found fitted and desiring to enter the Grammar school, sixty scholars without counting those who would have been glad to avail themselves of its unquestioned superior advantages from the mixed schools, making the whole number one hundred and twenty-six. This being a much larger number than could be accommodated or than was anticipated

when the house was repaired—which we think speaks well for the increased interest in the schools under the present system. We were obliged to look for additional room, and put seats and blackboards in the upper room of the Broad street school house, employed a third teacher and put thirty-five of the entering class into that room as the best arrangement for the year under the circumstances, leaving the general oversight of the school to the direction of Miss Dow. This arrangement has been as successful as we expected, but has serious drawbacks, which we need not particularize, and the class for next fall bids fair to be nearly as large, so that the district is confronted with the pressing question of additional room for this school.

The district voted last year to build a new house at or near West Claremont, raised money therefor, also to make arrangements for a school in the vicinity of the Junction, and appointed the School Board a Committee to locate and build.

The Committee advertised a hearing to get an expression of the people and located the house on land of Dr. Jarvis, without serious objection from any one, staked the ground, and engaged material for the building. Objection was then raised and a petition numerously signed presented, calling upon the County Commissioners to relocate the building. Several hearings were had and the location of the Board confirmed by the Commissioners.

The Building Committee (Dr. O. B. Way and P. S. Rossiter having been added to the Committee by vote of the district) then held meetings in regard to going on with the building, but as is not unusual in matters of this kind, much feeling had been developed in the matter among parties interested, who appeared with petitions and protests, which the Committee were unable to harmonize and the Committee themselves being unable to agree upon what kind of a school house they were called upon to build, they voted inexpedient to build at that time, whereupon the chairman resigned from said Committee and no further action has been taken. It is still the opinion of the Chairman of the School Board that the action indicated by the vote of the district at its last annual meeting to wit, to build a new house at or near West Claremont with two rooms, and to provide another school house below the Junction, is the practical and proper solution of the problem for the accommodation of the West part of the town.

Two changes have been made during the year in text books. Franklin's Arithmetic has been substituted for Robinson's and "Our Language" has been put in place of Patterson's Grammar.

The usual statistical reports, Treasurer's report, Report of Distribution of Tappan fund, and Register of Perfect Attendance are appended.

\*Heretofore scholars have been reported between the ages of 4 and 21 years.

# State of New Hampshire.

—O—

To the Inhabitants of the School District in the Town of Claremont, qualified to vote in District affairs ;

You are hereby notified to meet at the Town House in said district on the sixteenth day of March, 1889, at two o'clock in the afternoon, to act upon the following subjects :

*First.*—To choose a Moderator for the coming year.

*Second.*—To choose a Clerk for the ensuing year.

*Third.*—To choose a member of the School Board for the ensuing year.

*Fourth.*—To hear the reports of Agents, Auditors, Committees or officers heretofore chosen, and pass any vote relating thereto.

*Fifth.*—To choose Agents, Auditors and Committees in relation to any subjects embraced in this warrant.

*Sixth.*—To see if the district will vote to pay the County Commissioners for services in locating school house at West Claremont, and raise money therefor.

*Seventh.*—To see what action the Town will take in regard to additional room for the accommodation of the Grammar School by building or otherwise, and raise and appropriate money therefor.

*Eighth.*—To see what action the district will take in regard to building or repairing school houses for the accommodation of the west part of the town, and raise money therefor.

Given under our hands at said Claremont, on the 1st day of March, 1889.

EDWIN VAUGHAN,	}	School Board.
JOHN BAILEY,		
EDWARD F. HOUGHTON,		

A true copy of Warrant.—Attest.

EDWIN VAUGHAN,	}	School Board.
JOHN BAILEY,		
EDWARD F. HOUGHTON,		

# VITAL STATISTICS.

In compliance with an act of the legislature passed June Session, 1887, requiring "clerks of towns and cities to furnish a transcript of the record of births, marriages, and deaths to the municipal officers for publication in the Annual Report," we hereby submit the following:
